REPORT ON CLUB PEER BUDDY SESSION

Club Name: NexaSoul
Domain: Frontend Development
Session: Club Peer Buddy Session
Date: 11 September 2026
Venue: C3 Block, Room 704
Scheduled Time: 2:30 PM – 3:20 PM
Organised As Per: Timetable and instructions received from the Office of Academic Affairs (OAA), Chandigarh University

1. Introduction

NexaSoul, the Frontend Development Club of Chandigarh University, conducted its scheduled **Club Peer Buddy Session on 11 September 2026** as per the timetable and instructions received from the Office of Academic Affairs (OAA), Chandigarh University.

The primary topic of the session was **"Importance of Full Stack Development."** The session was organised to introduce students to the concept of full stack development and explain the importance of understanding both frontend and backend technologies in modern software development.

The session was conducted at **C3 Block, Room 704**, from **2:30 PM to 3:20 PM**. The designated club representatives interacted with students and discussed the role of full stack development, its components, practical applications, and the skills required to develop complete web applications.

2. Resource Persons

The following representatives from NexaSoul were assigned to conduct the Peer Buddy Session:

Name	UID	Mobile Number	Assigned Timing
GARVIT BHUTANI	24BCS12030	7219143239	2:30 PM – 3:20 PM
SURAJ	24BCS11025	9501158082	2:30 PM – 3:20 PM

Both resource persons reported for the assigned activity and remained available for student interaction.

3. Session Objectives

The major objectives of the session were:

- To introduce students to the concept of Full Stack Development.
- To explain the role of frontend and backend development.
- To create awareness about databases and server-side technologies.
- To explain how different technologies work together to build complete applications.
- To highlight the importance of full stack skills in modern software development.
- To encourage students to develop both frontend and backend skills.
- To motivate students to work on complete, functional projects.

Student Attendance and Participation

A total of 10 students participated in the Peer Buddy Session. The attendance recorded during the session was as follows:

S. No.	Student Name	UID
1	Khushi	26BDA10106
2	Yashita	26BDA10149
3	Snehal Sinha	26BDA10128
4	Tanishka Iyer	26BDA10096
5	Karish	25BAI70367
6	Varun	25BAI70294
7	Kohana Kalra	25BAI70129
8	Avni	25BAI70386
9	Kashish	25BAI70382
10	Drishti Gulati	25BAI70816

Total Student Count: 10

The students participated in the session and were provided with information regarding full stack development, its components, and its relevance to modern software development.

NAAC GRADE A+
Accredited University

NEXASOUL

4. Student Interaction

The session was conducted in an interactive format, allowing students to discuss their understanding of web development and full stack technologies.

The interaction focused on:

- Difference between frontend and backend development.
- Role of databases in web applications.
- Importance of APIs.
- Technologies used in full stack development.
- How frontend and backend communicate.
- Project ideas that can be developed using full stack technologies.
- Skills required to begin learning full stack development.

Students were encouraged to ask questions and discuss their current level of technical knowledge and areas they wanted to explore further.

5. Key Observations

The session highlighted that understanding only one part of application development may limit a student's understanding of how complete software systems function.

The discussion demonstrated the importance of learning how different components work together. A student who understands frontend interfaces, backend logic, databases, and APIs can develop a clearer understanding of the complete lifecycle of a web application.

The session also emphasised that students can gradually expand their skill set by starting with the technologies they already understand and then progressing towards backend development, databases, APIs, and deployment.

6. Major Outcomes

The major outcomes of the session were:

1. Students were introduced to the concept of Full Stack Development.
2. The roles of frontend and backend development were explained.
3. Students gained awareness about databases and APIs.
4. The importance of frontend-backend integration was discussed.
5. Students understood the benefits of developing end-to-end projects.
6. Different areas of full stack development were introduced.
7. Students were encouraged to expand their technical skills beyond a single development layer.

7. Conclusion

The **NexaSoul Club Peer Buddy Session held on 11 September 2026** focused on the **"Importance of Full Stack Development."** The session provided students with an overview of frontend development, backend development, databases, APIs, and the importance of integrating these components to build complete web applications.

Through discussion and student interaction, the session encouraged students to expand their technical knowledge and gradually develop full stack capabilities. The session also highlighted the value of practical project development and understanding the complete workflow involved in building modern web applications.
